Notes (these are visible only to the results administrator)

Entered by: Huw Lincoln

Complete the match result in the same way as you would complete a traditional result card.

Player names are selected from the dropdown boxes, which should contain ALL registered players. The special name 'w/over' should be used when a team is a player short. Note that in this case the would-be opponent must also be entered, so that they will be credited with a win. The score boxes should be left blank.

A 'match report' can optionally be entered in the **Report** section. Note that this *will be visible* on the website.

The **Notes** section is for notifying the administrator of any issues. For example: problems with the results system; missing or misspelt player names; disputes which need to be brought to the attention of the committee. This information *will not be visible* on the website.

A sample completed result form is shown here.

Report (this will be published on the web site) Great win for the Cock! The Hikers never got their boots on.

Notes (these are visible only to the results administrator) This results system is super, but here are a few enhancements I would like to see:  
1) It would be great to give individual ratings to each player;

## Result Confirmation

The above screen is also what you will see when clicking on **result**, as described earlier, if a result has already been entered (e.g. by a member of the opposing team). In this case, assuming you have a result to enter, you have two options:

If you disagree with the details already entered, click on **Submit new result for this match**, and enter a completely new result as described above. Both results will then appear on the match page. An explanation of the discrepancy should ideally be included in the 'Notes' section.

If you agree with the details already entered, click on **Confirm this result**. You will see the confirmation page shown here.
